

A dedicated staffing solutions company for the CGI industry, committed to matching the UK's top talent with our clients. We focus on CGI, Animation, VFX, Design and Visualisation.

As a niche recruitment company, we know the market inside out and only recruit for roles within CGI. This gives us a much better understanding of the market and means our entire database of candidates are working in this industry. This is one of the many advantages of working with us instead of a larger, more varied recruitment company.

Why Work With Us?

SEARCH

We dig deep to source all our candidates, using our large existing database and utilising modern technologies to source passive, as well as active candidates.

PERSONAL

We treat our clients properly, and offer benefits such as dedicated web pages.

These pages make it easy to show candidates work and documents to our clients before the interview process begins.

NICHE

As a niche recruitment company, we know the market well and only recruit for CGI and visual jobs. This gives us a much better understanding of the market and means our entire database operate in this industry.

SCREENING

We often meet with and interview our candidates before even sending their CV to our clients. Our in-depth, extensive screening process means we only put forward candidates that meet the brief and surpass our clients expectations.
